Dear Ms Davison

Developing a Successful Social Economy

Thank you for a copy of the above consultation document and congratulations on your department's efforts to develop an integrated and supportive approach to the sector.

The majority of our funding goes into this sector and we would be delighted to share this information with you at an appropriate time. We are also engaged in the process of quantifying the wider benefits of our investment in these 'not for profit' groups.

We are doing this on a thematic basis and I enclose our first two publications in a planned series: Park Life and New Life. Both of these publications are designed to celebrate the enormous contribution heritage projects make in both social and economic terms.

We would be very happy to meet with your team at any time to share experiences and wish you luck with your Strategic Plan. Please do not hesitate if you wish to discuss any of the issues raised or require any other information.

Yours sincerely

Kevin Baird
Manager
